Space and Naval Warfare Systems Center San Diego Awards Contract

SAN DIEGO — Andrew Corp., Orland Park, Ill. is being awarded a potential maximum \$9,821,250 indefinite-delivery/indefinite-quantity (delivery order) contract for up to 7,275,000 meters of Fiber Optic Micro Cable (FOMC). The FOMC will be ordered in individual spools based upon four firm-fixed pricing classifications: continuous lengths less than 10 kilometers, continuous lengths equal to or greater than 10 kilometers, and continuous equal to or greater than 20 kilometers but less than 23 kilometers, and continuous lengths equal to or greater than 23 kilometers but less than 28 kilometers. The FOMC is required to support fleet testing of U.S. Navy submersible systems. This contract has a one-year ordering period and four one-year options for a maximum length of five years. There is a minimum order guarantee of \$50,000 for the one-year base period. Work will be performed in Orland Park, Ill., and is expected to be completed by July 2010. Contract funds will not expire at the end of the current fiscal year. This contract was not competitively procured, one proposal was solicited and one offer received via the SPAWAR e-Commerce central website. The Space and Naval Warfare Systems Center, San Diego, Calif., is the contracting activity (N66001-05-5026).
